

Primary/Preprimary Education

Kindergarten programs

The district shall establish and maintain a kindergarten program or programs. A kindergarten program may be a half-day or full-day program, and the district shall receive state funding for students enrolled in these programs on a half-day or full-day basis, in accordance with state law.

Preschool programs

All district preschool programs shall comply with the rules established by the Department of Education and with rules for child care centers established by the Department of Human Services. However, full-day kindergarten components of the district's preschool program are not required to comply with the Department of Human Services' rules regarding child care centers.

Children with disabilities

In meeting its obligation to offer an individualized program for children with disabilities at age three, the district shall provide a special education preschool program at no cost to students who have been identified as disabled pursuant to applicable law.

Colorado preschool and kindergarten program

In addition, when the district receives **full** funding from the state to do so, the district shall provide a preschool program as part of the Colorado Preschool and Kindergarten Program for three-, four- and five-year-old children who lack learning readiness due to significant family risk factors, who are in need of language development or who are receiving services from the Department of Human Services as neglected or dependent children. All enrolling three-year-olds must lack overall learning readiness that is attributable to at least three of the significant family risk factors.

Parents/guardians wishing to have their children participate in this program shall make application to the district. Participants then shall be selected on the basis of greatest need.

Other children who wish to enroll on tuition basis

In an effort to offer a well-rounded learning experience, the preschool program may be open on a tuition basis to students who have not been identified as disabled pursuant to applicable law or who are not eligible for the program because of the factors listed above. The administration shall develop admission procedures that take into consideration space and staffing requirements.
