

Inter-District Choice/Open Enrollment

The Board recognizes that students may benefit from having a choice of schools to attend within the public school system that is not limited by school district boundaries.

Nonresident students from other school districts within the state who are accepted pursuant to the regulations approved by the Board may enroll in particular programs or schools within this district on a space available basis without payment of tuition, except as otherwise provided by law.

In providing for the open enrollment of nonresident students, the school district shall not:

1. Make alterations in the structure of the requested school or to the arrangement or function of rooms within a requested school to accommodate the enrollment request.
2. Establish and offer any particular program in a school if such program is not currently offered in such school.
3. Alter or waive any established eligibility criteria for participation in a particular program, including age requirements, course prerequisites and required levels of performance.
4. Enroll any nonresident student in any program or school after the pupil enrollment count day.

Before considering requests for open enrollment from nonresidents, priority shall be given to resident students who apply under the district's open enrollment/transfer plan.

Any student enrolled pursuant to this policy shall be allowed to remain enrolled in the school or program through the end of the school year unless overcrowding or other undesirable conditions develop, as described in the accompanying regulation.

Students granted permission to attend a school pursuant to this policy shall have the same curricular and extracurricular status as all other students attending the school, as determined by applicable law, bylaws of the Colorado High School Activities Association and the district's eligibility requirements.

Transportation

Transportation for students granted permission to enroll pursuant to this policy shall be furnished by their parents/guardians to a designated vehicle stop within the district if arrangements can be made to have the student ride on a district bus without disruption of regular routes and loading areas (not including special education buses and routes).

Homeless students, students in foster care and students with disabilities shall be transported, as necessary, in accordance with state and federal law. Buses from this district may enter the student's district of residence to pick up or deliver the student only with specific permission of the Board of Education of the district of residence.

Nondiscrimination

The Board, the superintendent, other administrators and district employees shall not unlawfully discriminate based on a student's race, color, national origin, ancestry, creed, sex, sexual orientation (which includes transgender), religion, marital status, disability or need for special education services in the determination or recommendation of action under this policy.

Special education

Requests from the parents/guardians of special education students for open enrollment shall be considered in accordance with applicable state and federal laws. The student's current Individualized Education Program (IEP) shall be used to determine if the requested school or program can meet the student's needs. Once the student is enrolled, the district shall conduct a staffing to update the IEP.
