3. Use subject line and EOM appropriately						I	D	D	D	M	M	E	E	E			
4. Add electronic signature						I	I	D	D	M	M	E	E	E			
5. Identify 'spam', 'phishing', and potential emails with viruses						I	I	D	D	M	M	E	E	E			
6. Use 'reply' and 'reply all' appropriately						I	I	D	D	M	M	E	E	E			
7. Use or identify common chat/texting acronyms (i.e. TTFN, BTW, IMHO, etc.)						I	I	D	D	M	M	E	E	E			
<b>Multimedia Presentations</b>																	
1. Start/open and plan a presentation from scratch or template						I	D	D	D	M	M	E	E	E			
2. Add text and graphics						I	D	D	D	M	M	E	E	E			
3. Add appropriate transitions and/or animations						I	D	D	D	M	M	E	E	E			
4. Add appropriate sound effects and/or video/music						I	D	D	D	M	M	E	E	E			
5. Start/open/insert an audio recording						I	D	D	D	M	M	E	E	E			
6. Add sound effects or loops						I	D	D	D	M	M	E	E	E			
7. Shoot and download video						I	D	D	D	M	M	E	E	E			
8. Edit and organize video						I	D	D	D	M	M	E	E	E			
<b>C. Troubleshoot and maintain systems and applications</b>																	
1. Troubleshoot basic technology problems (reboot, check power, etc.)						I	I	D	D	D	D	M	M	E	E	E	
2. Upload, download and customize files, programs, and plug-ins, as appropriate						I	I	D	D	M	M	E	E	E			
<b>D. Transfer current knowledge to learning of new technologies</b>																	
1. See similarities between various applications and use in new settings (File, Edit, View, Help menus, etc.)						I	I	D	D	D	D	M	M	E	E	E	
The student will begin to use the concepts or skills according to his/her developmental level																	
The student will practice applying the concepts or skills to work toward independence.																	
The student will use the concepts or skills independently.																	
The student will use the concepts or skills to scaffold for deeper understanding and broader applications.
